(Continued From Page Four.) that conclusion through study and ac-

that conclusion through study and actual experience.

If ten thousand physicians have not seen serious disfigurements, intense sufferings and horrible deaths from vaccination, it is as no evidence in comparison with a single one, who has. If twenty thousand don't know vaccination is a crime, and making it compulsory a liberty blighting curse, it cannot count as evidence against the testimony of those of us who do know it, and have the facts to prove it. In fact gentlemen, I believe a majority of those in favor of compulsory vaccination do not know much about it any way; for if they did, they would oppose it as earnestly as we do. I have way; for if they did, they would oppose it as earnestly as we do. I have heard men extolling the merits of this fithy body pollution as a preventive, to never even saw a case of small-per. And what does their opinion amount to? Why gentlemen there are hundreds of members of the American ount to? Why gentlemen there are hundreds of members of the American Medical Association, the organization that is fostering compulsory vaccination in the interest of vaccine producers, that have had no more experience with smallpox than I have with leprosy.

I know we are opposed by that same

I know we are opposed by that same Medical Association the most powerful, autocratic and dangerous medical monopoly in the world. I know too that they have fathered and supported, and hoodwinked legislators into entious states in this Union. I know that while they claim they have been furthering legislation for benefit of the dear people, there is not a single medical law that was not drawn for advancing their own selfish interests. I the grand the grand the connecticut?"

own expense, I sent to a number of physicians in this state the following letter with the following result: I said: Dear Doctor:

"Do you consider compulsory vaccination advisable or necessary at this time in Connecticut?" while they claim they have been furthering legislation for benefit of the dear people, there is not a single medical law that was not drawn for advancing their own selfish interests. I know they have assumed the guardinaship of the public and pose as the great humanitarian friend of afflicted humanity, but if you desire to test that interest and friendship, you need do nothing more than request them to consult and labor with practitioners of different medical schools in efforts to save you or some leved member of your family from sickness, suffering or death. Gentlemen, we would risk our lives to save your children from the bite of a mad dog or the poison laden fangs of a venomous serpent; then in the name of justice, humanity and fair play is it asking too much when we solicit your favorable recommendation on a measure that will give us the privilege of protecting our children from compulsory poisoning before they can enter the educational institutions in this liberty loving Commonwealth?

We come in all seriousness and earnestness soliciting a privilege we have a right to demand. Great God, gentlemen, just think of it being necessary in this era of civilization and in this boasted land of the free, to have to solicit your favorable recommendation to a measure that simply gives the purent and guardan the privilege of protecting the children of this state. boasted land of the free, to have to solicit your favorable recommendation to a measure that simply gives the parent and guardian the privilege of protecting the children of this state from what we know, from what thousands of the best physicians in this country know, from what hundreds have proved to be an uncertain, unreliable, and decidedly dangerous operation. We bring you testimony from more than 400 physicians, and we could have brought 4,000, who are opposed to tion. We bring you testimony from more than 400 physicians, and we could have brought 4,000, who are opposed to compulsory vaccination under any and all circumstances. We bring nearly 100 who believe vuccination to be dangerous because of it's liability to induce or produce eczema, scrofula, cancer, tuberculosis and syphilis, and nearly 100 physicians who say their conclusions have been reached through years of study and experience. These men have tried it, have been disappointed and disgusted with it. Have witnessed the intense suffering, the disgusting, soul sickening disfigurements, even unto the deaths of its victims, and realize from a professional as well as a humanitarian standpoint the injustice, the imposition, the horrors of compulsory vaccination. All text book theories, all dogmatic assumption of superior professional knowledge and wisdom of our autocratic boards of health, pales into insignificance before the statements of those whose verdict my friends, is founded and rests upon the rock of actual personal experience. In my own practice with chronic cases I find very many conditions the origin of which can be just as logically traced to vaccination, as can the scar on the arm or the log.

Our appearance before you in behalf

cination, as can the scar on the arm or the leg.

Our appearance before you in behalf of this measure is solely and wholly in the best interests of the people. We have no multi-millionaire vaccine producing companies to remunerate as for our time or efforis, and no financial oil from their plethoric purses has lubricated the wheels of our transportation. I am fully aware of the powerful influence they bring against us, but bear in mind it is their business and the profits therefrom that they are after that they can well afford to spend a few thousand dollars to defeat a measure like this, that they care nothing for the welfare of the people. And while I am confident there is not a compulsory vaccination physician in the state who would not deplore the advent of an epidemic of small-pox, we all know nothing would please these poison producers more, than to have our people afflicted with a smallpox scourge. These people are the power behind the throne, they are the ones who thrive on vaccination and into whose pockets our compulsory vaccination friends pay dollars, while they get only dimes for themsory vaccination friends pay while they get only dimes for them-

There are many honest, honorable nd humanity-loving physicians in the merican Medical Association, but American Medical Association, but they are not compulsory vaccinationists at heart. They dare not openly declare themselves, but their signatures are affixed to hundreds of little slips of paper on file in the school rooms of this state, saying that in their opinion "said child is not at this time in fit physical condition for vaccination." Thereby evading what they know to be an unjust, unholy and unnecessary law. These men are among our best law respecting and law abiding citizens, and they only evade this law, because they know it is an imposition, that there is no necessity for

man on earth knows. The condition of the system to handle or expel the of the system to handle or expel the injected poison, no man on earth knows. Serious results and sad disappointments follow the most skilful and painstaking operations. Gentlemen these are God's truths, and I assert without fear of successful contradiction that it is the most uncertain, unreliable and by far the most dangerous experiment made use of hy dangerous experiment made use of by medical practitioners in any civilized or uncivilized country.

Gentlemen, we are and of right ought

we are opposed by that same facts as I thought would enable you to Association the most power- more correctly understand the justness of the measure under consideration. To that end I have given you the honest convictions of a large num-ber of physicians from different states acting every pernicious medical law who have had many years of practice that disgraces the statute books of vand experience. In addition, at my rious states in this Union. I know that

from experience must establish greater weight with you than the mere opinion of others. This is by far the most important measure that can or will come before our legislature, and I hope you will do your full duty by reporting favorably on this bill under consideration, and using every honorable endeavor to have its passage transluture. orable endeavor to have its passage unanimous. For I assure you there is not a single act possible to this legislature, that will be of as great benefit and blessing, bring as much joy to the hearts of the people of this commonwealth, and earn for you the pure and unadulterated gratitude of your constituents, equal to the passage of this bill doing away with compulsory vaccination. sory vaccination.

Gentlemen I sincerely thank you.
